ABOUT US

Turkish Marbles started its business as Merchant Exporter in 2010 from Istanbul.

We soon gained expertise in sourcing of quality marble slabs & tiles from primarily West of Turkey. Thereafter, we forayed into procurement of marble blocks directly from quarries & took up 'jobbing' at several factories. Our alliance with strategically located factories near quarries helped us in providing better output material at lower price - which helped us form a better vision of our company.

Our Quality & Service standards - helped us in achieving our clients' trust & since then, we progressed rapidly to set up & alliance with multiple Marble Cutting / Processing Factories
